WINONA BORN WOMAN WISHES SHE HAD BEEN BORN A MAN

Wife of Ontario New Prime Minister Is Looking Forward to Part She Will Play in Province's Political And Social Pattern.

TAX COLLECTOR ONCE

Does Most of Her Own House Work And Thinks Nothing of Serving 125 Breakfasts For Sailors — Interested in Many Organizations.

Because she will "try anything once," Mrs. Gordon Conant, wife of Ontario's new Premier, is anticipating keenly the part she will play in Ontario's political and social pattern now that her husband is Prime Minister.

In her turquoise and wine sun-room at her spacious home, Buena Vista, on the outskirts of Oshawa, she stopped momentarily in a busy day to tell a Canadian Press reporter her "responsibilities have broadened, but they give me the very privileged opportunity of meeting more of the finest women in the world, those in the province of Ontario."

Mrs. Conant wishes she had been a man. She is in her element directing business whether it be cooking pancakes for 15 hired men or collecting taxes in the Township of East Whitby. She thinks nothing of serving breakfast to 125 sailors and her house parties are among Oshawa's most popular affairs.

Though she does some of her own house work and makes daily trips to the market, she finds time to put an almost astounding amount of effort into the large number of organizations she serves. St. John Ambulance Brigade in

Cheques Given To War Charities

Jas. A. Wray, Sahib of Salvage, Makes Donations to I.O.D.E., Red Cross And Cigarette Fund.

The Right Honorable James A. Wray, Sahib of Salvage, in Grimsby, has been making money fast the last two weeks. He has spent it just as fast.

Last week he turned over cheques to three War Charities. \$150 went to the I.O.D.E., \$150 to the Red Cross and \$50 to "Cammy" Millyard for the Chamber of Commerce Cigarette Fund. To date a grand total of \$1250 received from salvage has been turned over to local War Charities.

Jimmy reports that his salvage is now pretty well cleaned out of the Main street storehouse, with the exception of about five tons of old tires and some three hundred rubber tubes. These will be moved out in a few days.

On Monday he visited a local business place and snared 543 whole cartons, in excellent condition. In 15 minutes he had the cartons sold again to a local manufacturing plant for shipping goods in. He rounded up Geo. Kamnacher, Sammy Levine, Geo. Dousett and a truck from A. Hewson and Sons and one from Niagara Packers and in an hour's time had the cartons delivered and a cheque for payment in his pocket. Fast work, Jimmy.

Building Trade Had Good Year

Shafer Bros. Have Erected Many Residences of a High Class Type — New Church at St. Ann's.

Despite certain government restrictions, scarcity of materials and labor shortage, the building trade in this district has been fairly brisk all season.

Many new homes have been erected since last spring and there has been a large amount of remodeling and repair work.

Shafer Bros., Grimsby contractors, state that they have had an excellent year considering all the handicaps that they have had to face. There were many people who early in the year contemplated building, but being timid about the material situation did not carry out their plans.

There have been practically no new homes of a cheap type of construction erected, all of them being in the higher brackets. Some of the jobs completed this season by Shafer Bros. are as follows:

Mrs. E. M. Fleming, Beamsville, two storey brick and stucco, seven rooms and bath.

G. Duston, Vineland, two storey frame, six rooms and bath.

Donald Troup, Jordan, one and one-half storey brick, seven rooms two baths.

Christmas Smokes Are On Their Way

Every Grimsby Boy Overseas Will Have 300 Cigarettes For Yuletide — Funds Badly Needed.

"Every Grimsby boy overseas will get his Christmas gift of 300 cigarettes," states "Cammy" Millyard in charge of the Chamber of Commerce Cigarette Fund.

The order for the cigarettes is now on its way and while "Cammy" was a little short of funds to meet the total cost he still was able to finance the deal. If any citizen would like to make a contribution to the fund to clear up the deficit and start the campaign for next year under way, it will be gratefully received. The big fact is that the boys will have their smokes from the Old Home Town for Christmas.

The following is a statement of the Fund since last publication, up-to-date:

September collection,	
from boxes	\$23.74
October collection,	
from boxes	18.06
Grimsby & North Grimsby	
Salvage Committee	50.00
Young Ladies' Bridge Club	8.79
Peter Phelps & Douglas Alton	
selling Ivy plants	2.70
Lions Club	15.00
Total	\$118.19

Mr. Millyard would greatly appreciate it if all people who have had boys go overseas in the past year turn in their names and addresses, so the lists can be checked and brought up-to-date at once, to make sure that none of our fighting forces are overlooked.

Meet Governor

Ken. Robertson, of Brantford, Visits Club For First Time — Vote \$15.00 to Cigarette Fund.

A goodly number of Lions were in attendance at the semi-monthly meeting of the club on Monday night, when a visit was paid to the club by Lions District Governor Ken Robertson of Brantford.

In his brief remarks to the members Governor Robertson stated that the periodic visits of a Governor to the clubs under his jurisdiction was more in the form of a stock taking. He had taken stock off the Grimsby Club and found everything in good order.

He drew the attention of the members to the fact that they had been following closely the ideals of the Lions International in all their work, and reminded them that members of Lions clubs did business among themselves and among other people on a higher plane than was done by men not connected with similar organizations.

He stated that there were 32 clubs in his district and that in Lions International there were

Original Objective Exceeded by \$75,000—Jas. Aitchison High Salesman in The Whole County — People Did a Grand Job.

With one accord the boys at Victory Loan Headquarters said: "Very Fine! Splendid! Magnificent!" in reply to our regular question about how the Loan went in Grimsby.

Your reporter called in to check up the final results and this is what he found at noon on Tuesday.

803 subscribers have put away \$265,400.00 or 38% over the objective, so no wonder that the boys were in holiday mood, a grand job finished and nothing to do until May the first when the next loan will be on again.

In all, not including call backs, 1561 calls were made by the canvassers who started their day at 7.30 each morning by making up reports, checking in from 8.30 to 9.00 and then on the job until late in the evening. In some cases people were out but once a card was in their hands they persisted in getting it.

Unique Dwelling To Be Erected

Harvey Shafer Will Build Duplex With Front And Side Doors But No Back Doors.

Harvey Shafer "Boss Man" of Shafer Bros. building contractors, is homeless again.

In his past 20 years Harvey has built and moved into and then moved out again, of at least a half a dozen new homes. He and his good Frau and the kiddies would hardly get settled in one spot when somebody would come along and buy it. As a result they have been constantly on the move.

As soon as the sale of his newest house was completed, Harvey entered into negotiations with A. Harry Bull, chairman of the Property Committee of the Town, and purchased the lot between the council chambers and the Eames property on Main street west.

This lot faces also on Murray street. Harvey has prepared plans for the erection thereon immediately of an unique type of duplex dwelling. This building will have two fronts and two sides, but no back. It will face on Murray street and Main street. Each portion will have a front yard and two side yards but no backyard to collect rubbish in.

COUNCIL LIGHT ON MEMBERS STILL LIGHTER ON BUSINESS

Worked 52 Years At Same Trade

John Webb Celebrates 70th Birthday By Working As Usual, Making Castings For Armed Forces.

To celebrate one's 70th anniversary of birth by working on war materials, at the same trade, that had been followed steadily for 52 years, is an achievement that falls to the lot of but few men.

Grimsby has such a man working in one of its industries. He is a resident of Hamilton, but has worked for Grimsby Stove and Furnace Limited for some years.

John Webb is the man. He celebrated his 70th birthday on Saturday last. It was just the same to him as any other day. He worked as usual and "put up his floor" in the moulding shop, on castings that go to the armed forces.

Fifty-two years ago he started his apprenticeship as a moulder and has been at it ever since. In those days the big items that came from a casting shop were farm implements; household utensils such as pots, frying pans and flat irons, kitchen stoves and heating stoves. Mr. Webb states that there is not one man living today whom he worked with over half a century ago.

In honor of the occasion Foreman "Smoke" McBride and the fellow workmen presented Mr. Webb with a token of their esteem and wished him many more years of health and happiness.

Canadian Legion Receives Cheque

Money Belonging to Ladies' Auxiliary of Defunct G.W.V.A. Has Laid in Bank For 20 Years.

For a few years after the last war the soldiers' largest organization was the Great War Veterans. There was a branch in Grimsby. There also was a Woman's Auxiliary. When the G.W.V.A. went out of existence the auxiliary had some funds in the bank. They have laid there for over 20 years.

At the West Lincoln Branch of Canadian Legion meeting last week a cheque for \$69.31, was received from Mrs. Thos. Warner. It was the money from the auxiliary account. Legion members were very pleased with the gift and it will be set aside to be used for some special purpose.

Legion receipts for the period from January 1st to October 31st amounted to \$874.96, with expenditures of \$539.29, and \$50 interest on Victory Bonds to still be collected. \$206 has been granted this year to war charities.

Treasurer Lothian was granted authority to borrow \$1,000 from the Bank of Commerce to be applied on the purchase of the new club house property on Depot St., using one of the Legion bonds as collateral.

A motion was passed making a grant of \$10 to the Upper Canada Bible Society and a grant of \$20 to the Niagara Peninsula Sanatorium.

Three Members Absent — Only Routine Business on Agenda — Taxes Collected So Far This Year, \$70,968.

BRIDGE COMPLETED

Main Street Lot Sold to Harvey Shafer — Uncollectable Business Taxes Struck Off Books — Grimsby Arena Mortgage Cleared Off.

With three members absent, Town Council in regular session on Wednesday night, was a little light on debaters. There was nothing much on the agenda to debate anyway. Only a few minor questions and routine matters were taken care of. Mayor Johnson reported that the prize money won by the town team at Beamsville fair had been used to buy fittings for the harness. This was done with the consent of the council.

Tax Collector Hummell reported that so far this year \$52,938.82 in taxes had been collected for the month of October. Total for 1942 to October 31st was \$70,968.87. This is very favorable as the total amount collected for the same period in 1941, was \$86,528.04. But this year the mill rate is considerably lower than last year.

Work on the reconstruction of the Gibson avenue bridge has been completed.

Business taxes found to be uncollectable, amounting to \$255.75 were ordered struck off the books.

Accounts to the amount of \$571.80 were ordered paid.

Joint Fire Committee accounts, total \$397.31.

Lot 43 on Robinson street north was ordered sold to Edward Rooker.

Relief accounts for October amounted \$82.43.

Grimsby Lad Finds Small Fortune

Kenneth Fairbank Picked Up Wallet on Highway Containing \$1,134.00 — Police Locate Owner.

Kenneth Fairbank of 28 Oak St., had quite a thrilling experience on Saturday last.

While bicycling his way to Hamilton on Highway 8, around the Stoney Creek district, he noticed an object on the highway which cars were gayly running over. He investigated and to his amazement picked up a dilapidated billfold which contained \$1,134.00 in cash and cheques.

He continued on his way to Hamilton and after putting his find in the hands of the proper authorities at the police station, he could just wait for the results. The only identification was the cheques and the police got things moving and soon found the person who had lost the billfold.

After all the usual routine had been gone through it was proved that the loser was the driver of an oil truck and he was highly pleased to get it all back so quickly.

He gave Ken a small reward himself and said he hoped the company would do a lot more for him.

Kenneth is the son of Capt. Percy Fairbank, overseas with the First Division.

Your Cigarettes Bring Joy To Boys

For the past year and a half the citizens of Grimsby have contributed very well to the Cigarette Fund, sponsored by the Chamber of Commerce.

The pennies, nickles and dimes dropped in the little yellow boxes located in various places around town, have brought much joy to the hearts of the lads overseas, as is evidenced by the letters received by "Cammy" Millyard who has been in charge of the fund since its inception.

Dear Mr. President:

Thanks so much for parcel No. JYA37907, containing 300 Sweet Caporal cigarettes, which I received recently. It is extremely kind and thoughtful of our Canadian friends to send these gifts, and I can assure you that since the supply in England is not abundant,

they are most acceptable.

From the pages of the Grimsby Independent and some of my correspondents, I gather that Grimsby has become a very active centre for assisting the war effort in the way of supplies and loans. There has been a considerable turn over of real estate with an increase of new citizens. Indeed, the Chamber of Commerce is to be greatly congratulated for the energy it has spent in assisting and promoting the development of our town.

Please extend my best wishes to all the members of the C. of C. and continued success on your enterprises.

Yours sincerely,

Gordon A. Sinclair.

Dear Sir:

Received your most welcome cigarettes which hit me at a time

when they were about the only ones received by any of us.

I don't know how to thank you enough, and am running out of words so will close by thank you again. We keep up the good work and will try to keep ours going over here so cheerio.

Pte. F. L. Barrick.

Dear Sir:

A note of thanks for the cigarettes I received a few weeks ago, but due to unforeseen circumstances was unable to write before. Hoping you will forgive my tardiness and thanking you most sincerely.

I remain,

S. K. Hunt.

Dear Sir:

In answer to your most welcome parcel of cigarettes which I received

on the 2nd of September. It so happens at the time I received them nearly everyone in the Unit were out of smokes and you couldn't buy them anywhere. Once again I thank you for the gift.

C. J. Hunt.

Dear Sir:

Thanks a million for the smokes as they sure came in the nick of time. I don't get so many these days and the ones you send are sure appreciated.

I remain, sincerely,

W. J. Bidnall.

Dear Sir:

Received cigarette this morning. Many thanks, they are greatly appreciated, some day we will be able to thank you people personally for the fine things you have done for us boys over here.

Lovely weather here, hope you have the same in Grimsby.

Sincerely,

J. W. Hilt.

Dear Sir:

Received your most welcome parcel of smokes, many thanks to you all. They sure came in at a good time, because practically all the boys were without, then we had Canadian mail, and also the more than welcome parcel of smokes. Thank you.

I remain,

Pte. R. A. Skewes.

Dear Sir:

Am pleased to be able to once again acknowledge a package of 300 cigarettes from your organization. On more than one occasion your cigarettes have helped to fill the gap while waiting for cigar-

ettes from home. Once again many thanks.

Cpl. A. P. Clark.

Hello Cammy:

Please express my sincere thanks to all who made possible the recent delivery of smokes to me. I'm very much indebted to them as the main thing we all look for is Canadian smokes. The weather is pretty good so far, although you can feel the fall air during the evenings. Hoping you are in good health and that the old town is still the same as usual.

I remain sincerely,

Pte. Rooker.

Thank you very much for 300 cigarettes received this date. They are greatly appreciated.

Sincerely,

G. A. Silver.

IT'S "WINNIES" INNINGS NOW

After three years of taking it on the chin we are at last doing the leading and handing out the punches.

The "Old Bulldog" of Downing Street is now riding the wave and his co-partner for freedom for all, that "Yankee Cowpuncher" is in the saddle.

It took a long time to get there. But we are there and we are going to be there a lot more. We are only starting.

To all you Pessimists and Squawkers, I wish you well. I hope you are getting as big a kick out of our success as the "Old Bulldog" and the "Yankee Cowpuncher" are.

THIS IS YOUR NEWSPAPER

"Show me a Town or a Village with a good weekly newspaper and I will show you a Town that is progressive and full of live wire people."

Thus spoke the late Joseph Pulitzer, of the old New York World, one of the greatest newspaper publishers of all time. He had come up to the ownership of one of the greatest metropolitan newspapers that the world has ever known by the weekly newspaper route. He was intimate with small town papers and small town people. He knew the whims and ideas of the people, he also knew what they wanted in news and leadership. He knew what the real duties of a country weekly should be. He knew that a dead paper made for a dead town and had a deterrent effect on the progressiveness of its people, and that a live paper worked in just the reverse.

A weekly newspaper according to law is generally owned by the publisher, but in actual operation it is really owned by the people. If it does not satisfy the people it cannot stay in business. On the other hand if the people do not take advantage of using the columns of the local paper and helping the publisher to turn out a high class sheet, it cannot stay in business.

Therefore, we say unto you, The Independent Is Yours—Use It.

The Independent has been published continuously for over 57 years. It has had its ups and downs like all small town papers but it still kept plodding on through good times and bad times. Fighting and battling at all times, even when it was financially detrimental to do so, for the upbuilding and betterment of the Town of Grimsby, North Grimsby and their people. It will continue to do so.

Naturally, for a newspaper to exist it must have patronage from the people in subscriptions and from the merchants in advertising and job work and from the industries in job work.

In order to merit that patronage the paper must at all times be for the people. It is today and will continue to be.

In the 50 and seven years that The Independent has been published it has been the mirror to the eyes of the world of Grimsby. It has been the mouthpiece by which all the beauties and advantages of this district have been proclaimed.

Its pages in that long span of years have chronicled many items of families. There are Grandmothers and Grandfathers living today that The Independent announced their coming into the world and has followed their lives down through the years to the last announcement of the last little cherubic grandchild.

We wish to continue to do just the same thing and we want you to help us to do it, both morally and financially. If we print something that is wrong in your estimation, call us up or come into the Editor's Sanctum Sanctorum and give him the Devil. If we print something that pleases you, come in and renew your subscription.

The Independent Is Yours—Use It. We are the servants of the people. So let's serve.

A JOB WELL DONE—

A. R. "Sandy" Globe, chairman of the Grimsby and North Grimsby Victory Loan Committee spent over half his life in Northern Ontario and Quebec, prospecting for gold. One day he hit it rich and retired to industrial life.

What more natural then when the Victory Loan campaign was being mapped out that "Sandy" be made the chairman and chief gold hunter. "Sandy" and his salesmen did find gold. \$265,400 worth of it. They also found courage and determination in the hearts and the minds of Grimsby citizens. A determination to buy bonds until it hurt and thus make sure of a successful prosecution of the war.

The present loan went over the top by \$75,000. This is the third loan and in each of the preceding loans the objective set was passed by a goodly amount.

In the first loan the citizens subscribed for \$206,000; the second for \$220,000, and now in the third for \$265,400. A grand total in the three loans of \$691,400. Truly a remarkable effort.

Add to that amount \$67,000 for War Saving stamps; \$1,200 for British War Victims; \$248. for Polish and Chinese relief; \$1,750. for Red Cross Ambulance; \$1,200 for Station Wagon; \$1,651, spent for various charities, received from Salvage; \$9,735 in donations received by various War Charities; \$9,270 in Red Cross drives; then the amount of money donated for many miscellaneous things and the grand total must surely reach the Eight Hundred Thousand Dollar mark.

The citizens of the two municipalities have every right to feel proud of their efforts, not only in this last drive, but in the support that they have given to every drive since the very beginning of the war.

People, we are proud of you!

INDIAN SUMMER

Would you say that Indian Summer has come and gone, or is it still just around the corner waiting to give us those balmy days when Summer seems so sorry to depart and Winter hesitates to come onto the scene?

It is ever a moot question, unless perchance a faithfully-kept calendar record or diary can help us spot Indian Summer after it has come and gone.

"Fine weather, Indian Summer," Gen. Josiah Harmer jotted down in his journal on the twenty-first of October away back in 1790; and then he proceeded to describe a clash of United States troops with Maumee Indians in the region near the present city of Fort Wayne, Ind.

This notation is significant because it appears to be the first written reference to Indian Summer as a period of truly delightful weather, though the term may have been used in conversation long before.

What is the derivation of this picturesque descriptive of the warm and pleasant spell that Autumn invariably brings for our enjoyment?

That seems to be a matter of individual opinion; but many historians believe that the use of the word "Indian" hinges directly on the fact that for the American Indians this was a period of marked activity when they made preparations for the forthcoming hunting season, doubtless a time of great expectation for them.

Indian Summer is rather a dubious period. Whether we have it or whether we do not depends on the weather and on what you think about it.

There is neither a fixed date for its arrival nor any definite duration; it may arrive before a heavy frost, but it is much more likely to arrive afterward. And we may have Indian Summer plus a return engagement.

A young matron reports that one morning recently she hastened down town to attend what was advertised as a sale of "all-wool" snow suits, her small daughter having out-grown such parts of her last winter's garment as she had not outworn. The suits on sale were fair value at the price, but to the mother's experienced eye were obviously not all-wool. When she protested to the sales girl about the inaccurate advertising she received the reply: "Well, that's all the wool they put in them these days." — Printed Word.

Away Back When

Frank Fairborn, Jr.

GOATS. Did you ever own one. I don't mean the kind of goat that everybody has and everybody else is trying to get.

I mean the animal kind of goat that has four legs, a set of horns, whiskers and eats tin cans for desert. The female breed give forth milk. The male of the species gives out butts, wanted or unwanted.

I have one particular goat in mind. In fact when I was a kid I think it was the only goat in Grimsby. What a goat that Billy was. He had an appetite that the refuse from a tin can factory couldn't satisfy. It took seven men and a bull dog to even corral him and get hold of them. He was the damndest, most rambunctious creature that ever lived. He butted half the population of Knockers Hill clean out into the township and the other half down into the town. It all depended on which direction they were travelling at the time they received the butt.

Yet, that goat was beloved by around 200 good men and prominent citizens of this district. And at his death, he received befitting ceremonial honors.

In all the turmoil created by Billy, the goat, as us kids called him, there was one little town lad that could handle him like a mother handle. A new born babe. I said tad of a lad, well, that tad is not much more than a tad of a man right now, I mean physically. He is Charles A. "Dad" Farrell, Manager of Canadian Package Sales, Ltd.

Back in 1899—43 years to be precise — Union Lodge No. 7, A.F. & A.M. held a centennial celebration in Grimsby. It was, from my little remembrance, and from voluminous documentation, one of the biggest affairs of its kind ever held in the Niagara District, or anywhere else for that matter.

Naturally, since an event of that kind was going to be celebrated, solid old Masons like "Uncle Bill" Clarke, W. J. Drope, Wm. Cowan, George Seccord, Albert Terryberry, Jno. C. Farrell, Edw. Wilson, Squire Forbes, Samuel Whittaker, Capt. Randall, James S. Randall, and oh, a host of other old timers that I could name, had I time to sit down and think about them. They had to have a goat. They went somewhere and they got one. Many an old resident who wasn't a mason wished they hadn't.

Mr. William Goat arrives in town and was turned over to the Farrell family for protection and feeding. He found his own feed. That guy was the world's best forager. Then a set of harness was made for William and a cart, built on the principal of a racing sulky. While all this was going on "Dad" was chief "Swipe" of the animal. When August came and the big event was to take place the citizenry of Knockers Hill was up in arms over its presence, but "Dad" was the happiest kid in town and the goat was eating out of his hand.

August—no checking record, cannot give exact date—the big day arrives and a parade of Masons over a mile and a half long paraded the streets of the Village and wended their way to Grimsby Park where a grand day of festivities was held.

At the head of that mammoth parade was a goat. Nobody but William the King, himself, all decked out in a new set of harness and a new sulky. Riding the sulky and driving Billy was "Dad". To us kids he was a sight to behold. He was Lord and Master of us all. He had on long white pants, black swallow tail coat and a tall silk hat that was taller than he was. With lines in one hand and whip in the other he truly was a racing driver.

Billy was just as proud as "Dad" and that was some proud. Records showed, if I remember correctly, that Bill didn't butt a person all day. But he did not maintain that record long after he got back to his home stamping grounds. It wasn't long until he was butting the whole population around in the same manner that Montgomery's 8th Army have been butting the lousy heinies around. He was a great goat though.

While that goat was in "Dad's" possession "Dad" was the greatest guy that ever lived. Every kid in town wanted to have a ride on the sulky. "Dad", just as wise in his day then, as now, played the Tom Sawyer act. Us kids fed the goat, cleaned the goat, cleaned the yard and pen, harnessed him and unharnessed him and got a free ride. Boy, to be a kid again!

And speaking about this guy "Dad" Farrell, let's go a little further. He was one of the best Grimsby born hockey players that ever wore a pair of skates. When he quit the playing end Uncle Bill Hewitt, secretary of the O.H.A. (before the Free got control) says "Dad" here's a whistle, go out and show them how to referee." The Tadpole did. He was the boss in every game he ever handled. Fair, above board in every move and order. Made mistakes on the ice, but clean enough to acknowledge them to a complaining manager after the period. Asked no quarter and gave no quarter. He ran the game and that was what the public came to see, Hockey. The bigger the bruiser was the bigger chance he had because "Dad" always figured that nine times out of ten the guy was only on the ice because some pin head manager put him there on account of his size and not his hockey ability and if the poor goof got into trouble it wasn't really his fault.

Let a big bimbo that really could play hockey pull off something that was illegal and it was amusing to see the Tadpole giving him the thumb in true Lou Marsh style and by Gad it went. And there never was any trouble either.

Right here I am going to answer a question for the 'eleventh and last time. "Dad" got his name through a roly-poly, good-natured butcher in this town. One Samuel E. Mabey, who conducted the butcher shop now operated by St. John and Shaw for many, many years. He was once reeve of the

village, serving out the term from May to December of the late Thomas Johnson, who died in office, father of our present Mayor.

Sam. Mabey loved kids and his fellow man called him by his nick name of "Dad". All us kids when sent to the butcher shop to get a nickel worth of liver and a free bone for the dog, used to call him Mr. Mabey. One day he asked a youngster by the name of Charles A. Farrell what his nick name was and he told him he did not have one, so Sam says you take mine and he started to call the kid "Dad" and it wasn't long until all the kids in town were calling him "Dad" and it has stuck and became a nationally known cognomen in hockey circles and to a great extent in business circles.

A goat by any other name would still be "Dad".

Age Must Be Served

(The Printed Word)

An executive in a business that is large but, according to our modern rulers, non-essential, reports that the difficulties of getting and retaining employees are so great that he is glad to take on almost any available person. So rapid are the staff changes that the faces of about two thirds of his personnel are unfamiliar to him, but he has noticed particularly one rather elderly man capably performing his duties in the stock room.

After the new employees had been on the job a week or two, it became necessary to ascertain his age for purposes of the company's group insurance plan. Our executive, though accustomed by now to expect a surprise a day, was mildly shocked to discover that his new stock-room boy was eighty-five years old.

The House of Prayer

(Strathroy Age-Dispatch)

More than in almost any other period of the history of this nation people are coming now to feel that this is a time for prayer.

Remembering that "The effectual fervent prayer of righteous man availeth much," Canadians have clung to that faith throughout their national life.

And while we do not believe the nation has entirely forgotten to pray in time of peace and prosperity, it is in time of trial and stress like the present—and perhaps only naturally so—that our thought turns most earnestly toward the God of Our Fathers, to seek His help and guidance in our great need.

What more natural, therefore, than for us to turn our steps toward the House of God when we would offer up our petitions—for the preservation of our nation in its present struggle to keep our rights of life, liberty and the pursuit of happiness, for the comfort and sustaining power of the everlasting arms underneath our men who fight, and for a large measure of inspiration and devotion in the hearts of those who remain at home to labor and to wait.

He Will Not Return

(St. Catharines Standard)

You are sitting in the room he left. The open cupboard shows all his workaday and best clothes hanging cleaned and pressed against his return . . . and the paper in your hand says he will not return.

The paper says that he is dead, but that is not true. The truth is that he will not return. He went adventuring out ahead of us, following the call to give his life—no, not his real life but that part of it which he shared with us here. That part of life he gave wholly and freely, not careless of us but because he was so mindful of us all. So he no longer needs the body we knew. It is folded away in Mother Earth or in the clean salt sea.

His first taste of life, his apprentice work, is over. We had not thought it would be that way. We thought of him as following us in our long monotone of work and care, his vigor, like ours, slowing down at last to the anxious step of advancing age. We had no adventure, only a steady plodding through many years. But for him a trumpet sounded! We had thought the days of chivalry gone forever, and yet in an hour our plain man went away like a knight to rescue the innocent and the distressed. He has done his devoir and now the trumpets are sounding for him on the other side. He is now wonderfully, tremendously alive.

We taught him, the faith of the Everlasting Arms and the Everlasting Life. In that faith he went out, not speaking of it so openly as we do, but holding to it and proving it like a man. Now it is our turn to believe that faith as never before and to practice it. He is alive in the paradise of God. What that means passes all imagining, but surely it means that his love for us is illuminated by a great light.

Do you think that, delighted and full of wonder as he is, he would want us to sit and mourn with folded hands in his old empty room? To grieve and harden and grow bitter? To turn the room where once he was so gay into a museum and a morgue? No! He wants us to lift up our hearts and catch a glimpse of the vision so clear around him.

Wouldn't he say: "If you could know what I do now, you would have no grief. You would put on festive clothes and sing to God in church and out. I've been promoted. I am busy in a great service. The old frustrations are all gone. We do great things here. Let someone into my old room. Give my things to someone who needs them. And when you get going in your new happiness, go to other houses where men like me will not return and get the truth across to the people there. Where we are, we can see better how God is working His purpose out. It costs a great price and we have paid a little of it, and you are paying some of it, but it is all marvelously worth while."

Under the share-the-meat plan, Chicago restaurants will offer half portions, it is announced. Which will make it even easier for the steak to hide under a slice of tomato.

SUNDAY, NOVEMBER 15th

Things That Mar Family Life

Printed Text—Genesis 27: 30-35; Matthew 5:31-32; Luke 12: 13-15.

GOLDEN TEXT

Bear ye one another's burdens, and so fulfill the law of Christ.—Gal. 6:12.

An Introduction to The Lesson
In addition to the printed passages at the head of this lesson, a number of other scriptures are listed for consideration, all having to do with the things that hinder normal family life, as depicted elsewhere in the word of God. Jealousy and distrust between children of the same household, is set forth in Genesis 4:1-12 and 27:1-45. Truly, "Jealousy is as cruel as the grave" (song of Solomon 8:6) and in Proverbs "Who is able to stand before envy" Proverbs 27:4.

A Lesson Outline

Family Troubles
Jealousy (Gen. 4:1-12). Envy (Gen. 27:1-45). Hatred (Deut. 24:1-5). Separation (Malachi 2:13-16). Immorality (Matthew 5:31-32). Unfilial behaviour (Mark 10:7-12). Covetousness (Luke 12:13-15). Divorce (Romans 7:2-3). Desertion (1st Corinthians 7:10-16).

The Heart of The Lesson

If all the members of a Christian family have before them the peace and blessing of the whole group, they will not allow selfish considerations to destroy that harmony which is far more precious than any one individual's personal gratifications. "Each for all and all for each" is a family motto well worth remembering and acting upon.

Gay Raiment

Over in the other Grimsby last month they held a fashion show at one of the big shops, staged by six mannequins. A display of utility clothing, they called it. And if you think it was mostly slacks and bandanas, with a few air warden's uniforms thrown in, you're very much mistaken.

The parade had, according to a press representative, the glamour of soft lights and sweet music reminiscent of those delightful affairs which were part and parcel of our peacetime lives—with just one difference: One must now have the coupons as well as the money.

And here are some of the garments that were shown. There was a cheerful dress of military red for the very young girl, while an older woman would have delighted in a sophisticated model of black, touched with gay embroidery at the neckline. Particularly charming was a sports dress in a soft shade of green with an accented pleated skirt. Among the coats, bright colours again seemed to be the keynote with dashing models in pillar-box red, lime green and a new shade of African tan. There is nothing standardized, or on the other hand, extreme, in the utility models.

For rainy days there were gaily colored mackintoshes and practical rain coats with umbrellas to tone.

With the exception of the hats, prices were moderate. One lady, trying on millinery, was heard to lament that "the days of the 6s. 11d. model were definitely over."

The English believe in lightening up the gloom with plenty of colour, it seems, and their inventive genius has not been crushed when it comes to giving attractive names to coat and suit materials. Listen to this from a merchant selling ladies' costumes, — Rodex, Marbeck, Elgora, Carmoor, Herahelle. To be clothed in bright raiment bearing one of these names is a big help towards keeping one's head above the clouds.

Avoid all haste; calmness is an essential ingredient of politeness.

From Gilded Argosy

Have you been up yet to the Gage Park greenhouses to see the fine show of chrysanthemums? They reserve any quantity of superlatives, and if you have a chance at all, don't miss seeing them.

But when all's said and done, we like our own sturdy open-air chrysanths better, and we don't think we are showing partiality, either, in saying it.

Unload their gaudy scentless merchandise."—Oscar Wilde.

Ye Soft Pipes, Play On

Who got up early enough to hear the organ recitals given by Dr. Charles Courboin ever Sunday morning? They come from New York over C.B.L. and reach us at 8.05, just after the first news cast.

Dr. Courboin's Sunday morning recitals are given expressly for those who like something good to start the day right. They never jar, no matter with what degree of joy or sorrow one listens in. For those who are not free to get healing and peace and courage from contact with nature, organ music is one of the next best things.

"Music was a thing of the soul; a rose-lipped shell that murmured of the eternal sea; a strange bird singing the songs of another shore."—J. G. Holland.

Under My Elm

So David Grayson has produced a new book. We must have it. As with the others he has written, the scene is laid at his New England Farm in Amherst, Mass. It's a long time since we've read anything of his, so look forward to a treat.

He tells, in this new book, "Under the Elms," of the little intimate happenings of everyday life, such as Sunday morning, the cat in the window, birds and fishing, his newspaper, his writing. The whole book, says his reviewer, shows the wide range of Mr. Grayson's browsing, the mellowness of his wisdom, and the kindness of his feeling for his fellowmen.

David Grayson is just our sort of person, wise, understanding, for whom we save up our choicest epigrams. We feel we can do him no greater honour than to put him on our bookshelf beside Peter McArthur. Did you know his real name is Ray Stannard Baker?

The Tumbleweed Hand

In other words, the "business" hand affected by commercial schools and classes.

It rolls across the pages of the ledger. The faster it's written, and speed is its one and only merit, the rollier it gets. It ignores all traffic signals and sweeps unhindered across the red lined boundaries of L.F., of debit and credit at its own sweet will, dropping its cargo of figures wheresoever it listeth.

It may be fast to write, but is it ever slow to read! You have to put our head down on the desk beside the ledger and look slant-wise at the writing to interpret it.

If you are acquainted with the prairies, you'll know what tumbleweed is and does.

"Nature's chief masterpiece is writing well."—Buckingham.

Dockyards Jewel

The Admiral in Command at a great Scottish naval dockyard took two friends to see what was going on. They saw the intricate organization that made everything work smoothly, and the thousands of men at work.

But the interest of the Admiral seemed to lie more in his libraries, rest-rooms, canteens and entertainment halls. He had all the care of a father for his big family.

Then the Admiral took them to an ugly corrugated iron shed, saying, "This is the jewel among everything; I have given all my spare time to polish this jewel." The door was thrown open and they saw a lovely little chapel. Here the Admiral had put his men to work on the derelict shed and they had designed and made everything. The altar rails had been carved from the tank of old naval vessels. The walls had been lined with wood and adorned with paintings of scenes at sea. The font had been a ship's compass.

This jewel hidden in an old shed represented the longing of busy men in the midst of their work to have some sanctuary of peace where they could come and find spiritual solace. With loving care these men had formed it by the work of their own hands.

A Happy Home

Every morning there was daily prayer, followed by a reading from Scripture and a hymn. Elizabeth, the mother, led the singing, playing on her harpsichord, and it was she who read the Lesson. By this time a little sister, Elizabeth, was born, the boys could sing very well, and it was a pretty sight to see the family gathered about the instrument, joining in the music, Elizabeth's sweet soprano, supported by her husband's baritone and his sister Julia's small but true voice, carrying the boys' treble. Henry especially loved to sing, and in the evenings the moment study was over, he would beg his mother to play for them. "First we'll have a march," she would say, laughing as she beat out some stirring military measures, to which the children stamped energetically around the center table. Then:

"Now we'll sing. You choose first, Stephen."

"Brigall's Banks, please."

When Henry's turn came he was likely to ask for one of Tom Moore's songs, "Believe me if all those endearing young charms," or "The Last Rose of Summer." Then perhaps Elizabeth would suggest "Oft in the Still Night."

There might be dancing afterwards. Lively hornpipes and jigs like "Money Musk," "The Haymakers," "The Fisherman's Hornpipe." Grand stamping of feet and whirling around and gales of laughter went with the dancing, father and son joining in, while mother rattled the tunes off on her harpsichord and called the changes in some of the dances.

Of all the poets, none has a more satisfying life than Longfellow. Born into a well-ordered home, with a happy-hearted, accomplished mother, and a father who was one of the most respected and influential citizens of the community and who, moreover, never quite lost the joy and wonder of having with his wife, Henry Wadsworth Longfellow, knew from his early childhood what he wanted of life, and he got it.

That great desire, fostered by his mother, was to be a poet.

In a charming biography, The Poet of Craigie House, from which the above extract comes, Hildegard Hawthorne tells the story of Longfellow's gracious, unspoiled life, a narrative that should inspire the most blighted of pessimists with a little faith in humankind.

Our Weekly Poem

SING A SONG OF SALVAGE

Give your lead and your tin,
For to hoard is a sin.
Give your salvage away,
Give your bones and your fat;
You will never need that.
Please give something to-day.
Give your rags and your string
And your old teething ring.
Never mind how you love it, one day.

Give your dollars and dimes,
These are serious times.
Let's give something to-day.

If the war's to be won,
Why, it has to be done.
Give your salvage away,
It's the right thing to do.
And they're calling on you.
Please give something to-day.
So it's give and it's give
That our nation may live,
And the need is greater each day.
If we cannot give cash
At least we have trash,
So let's give it to-day.

—By Jessie May Bain, Grimsby.

Bounce

The truth of the old saying that necessity is the mother of invention has been proved over and over again.

Who ever thought that rubber would ever be obtained from anything but a rubber tree? But it is. And the latest is the poinsettia, that decorative weed that has pushed its way into the Christmas market against much opposition. within the last few years. An Australian company has acquired millions of poinsettias growing in Queensland for pressing and extracting rubber, it is said. If the method of extracting the rubber proves successful, the poinsettias can be grown like sugar cane.

Flying Dutchman

The Flying Dutchman is a spectral ship which is said to be seen off the cape of Good Hope in stormy weather forever trying to round the cape, but never succeeding. She brings misfortune to any vessel that sees her, it is said.

Sir Walter Scott says that the Flying Dutchman was originally a ship laden with precious metal. A horrible murder was committed on board, the plague broke out among the crew, and no port would permit her to enter, so she was doomed to sail forever.

There is a more common form of the legend which declared that

the ship must beat forever against head winds because her master swore impiously that he would round the cape in spite of God or the devil. Therefore, the ill-fated ship wanders over the stormy waters like a ghost, doomed to be forever beaten by wind and wave and never to find rest.

Several legends of the sea have used the legend of the Flying Dutchman as a basis for stories.

GUIDES AND BROWNIES

A joint meeting of Guides and Brownies was held on Tuesday evening, when eight Golden Bar Brownies "walked-up" into the Guide Company and achieved the ambition of every Brownie.

After the Guides had expectantly formed their horse-shoe, the Brownies came running in and the regular opening ceremony of the Pack took place around the toast-stool. There Brown Owl (Mrs. T. Gammage) gathered the Golden Bars around her and told them they were now ready to go up from Brownies to Guides, and she bade them "good-bye." The other Brownies made a living tunnel, holding their hands joined above their heads, and down this tunnel raced the Golden Bars, pausing at the outlet to wave "good-bye" to their old Brownie friends. There Lieut. Scott challenged the newcomers,—"Who goes there?" "A Brownie who wants to be a Guide," replied each, and the eight were led up to Captain Cullingford who gave each Brownie in turn into the charge of her own Patrol Leader. So the Brownies entered the world-wide sisterhood for which their years in Brownie Land had prepared them.

The Guides then entertained the Brownies and their mothers with games, songs, and a touching little pageant of Guiding suffering in Europe under Nazi cruelty.

Among those present to watch the initiation of the children were: Mrs. L. A. Bromley, Regent of the Chapter, Mrs. G. A. Sinclair, Convenor of the Guide Committee, with the members of the Committee, together with the mothers of the children and members of the Chapter.

Such interest on the part of the "grown-ups" is very welcome to the committee and officers, and encourages them in their steady, devoted work; for Guiding and Guiding are to-day one of the best means of training the rising generation for the part they must play in the New Order that is looked for after the war.

Nuptials

LOVE—HIAM

The wedding of Lillian Blanche, daughter of Mr. and Mrs. William Hiam, Hamilton, and Mr. Carl J. Love, son of Mrs. Love and the late Mr. C. J. Love, Grimsby, Ontario, took place on October 30, in Centenary United church, Hamilton, Captain the Rev. Norman Rawson officiating. Yellow and blue chrysanthemums, palms and ferns decorated the church and tall white tapers gave a soft light. A. J. Irene Brewer, A.T.C.M., presided at the organ and Stanley Jones sang "O Promise Me and Thine Alone."

The bride wore her sister's wedding gown of ivory satin, princess lines, with Chantilly lace neck and full skirt, falling into a long train. Her heart-shaped headpiece of matching lace held her long veil of illusion tulle and she carried a white Bible with orchids and bouvardia, attached by long streamers.

Attending the bride were her sisters, Mrs. M. R. Lewis, as matron of honour, and Mrs. C. H. Wynn. Their gowns were of heavy crepe, fashioned with gathered bodies and full skirts, ending in slight trains. The former was in gold and the latter in blue. They wore matching headpieces, Mary Queen of Scots style, with crimson feathers trimming. They carried cascade bouquets of Tullman roses.

Mr. Maxwell Lewis was best man and the ushers were Mr. C. H. Wynn and Mr. Thomas Allen.

A reception was held at Southgate tearoom. The bride's mother was dressed in queen's blue chiffon over taffeta with wine hat, trimmed with blue. Tullman roses composed her corsage bouquet. The groom's mother wore a black crepe dress with sequin trimming, matching hat and corsage bouquet of white baby chrysanthemums.

The bride wore for the wedding trip a pink wool dress, brown hat with face veil, brown accessories and beige camelhair coat. Her flowers were orchids, worn as a corsage bouquet.

WHY

SOME ITEMS ARE OCCASIONALLY MISSING FROM OUR SHELVES

SWEET BISCUITS—COOKIES AND SODA BISCUITS
• **Because** During recent months the production facilities of all biscuit manufacturers have been largely devoted to requirements for the Canadian and United Nations' Armed Forces, and it is only between "Armageddon Runs" that civilian requirements can be taken care of. Each week at least a reasonable selection is delivered to and is available to our customers.

IMPORTED AND CANADIAN PACK SARDINES
• **Because** The famed "Crossed Fish" Sardines, a native of Norway, now at present under Nazi Germany's domination, naturally must be considered "missing" for the duration. As a result, the demand for Canadian Sardines has greatly increased, and notwithstanding the efforts of Canadian fishermen and packing facilities in the world's largest sardine packing plant, owned by Connors Bros., at Black's Harbour, New Brunswick, "Shortages" are experienced at times, but generally there are at least a few brands on hand to choose from.

CORN AND SUGAR SYRUPS
• **Because** The demand for these popular products from the fighting forces, war industries, and those on the home front, has been so great that the manufacturers are unable to keep pace with it. It is a wartime problem that is taxing the manufacturers' capacity to the limit. Even the normal production has been almost doubled, still the demand frequently exceeds the supply. They also, the necessary conservation of tin made it imperative that no more 2-lb. tins be packed for the present, therefore, only the 5-lb. and 10-lb. sizes are available.

DOG AND PET FOOD IN TINS
• **Because** The necessary conservation of tin plate decrees that Dog and Pet Foods will no longer be packed in tins. However, "necessity being the mother of invention," the manufacturers of Dog and Pet Food quickly responded to the need and have developed Dehydrated Dog and Pet Food, now packed in cartons, containing the same ingredients as formerly, except that excess moisture has been added and "Rever" continues his healthful diet. The situation concerning the above commodities is equally applicable to hundreds of other items that are sometimes missing from our shelves.

The big feature of the concert is a half hour broadcast over CFRB, Toronto and is to include a number of local artists.

Of course everyone will be out to give their home town talent the best support.

The White Elephants are sponsoring the program here and the proceeds will go towards war work.

SPORTOLOGY

By Bones Livingston, Sportologist

There are deep furrows on the brows, and furtive looks in the eyes of Clarridge Higginbottom Rushton (Tobacconist; Barber; News Vendor; Household Utensilist and Sports' Impresario Extraordinary—Advt.) and his co-partner in all their nefarious deals, Watsonian Knickerbocker McPherson (Hay, Straw and Potatoes—Advt.)

Those furrows and looks arrived coincidentally with the announcement by Earl Jonathan Marsh that the Arena would operate this winter, if at all possible. Dogged trailing on the part of one of our operatives brings forth the information that Rushton and Mac are deeply engrossed in trying to figure out a plan whereby Grimsby can have a junior team this winter.

Our operator also culls the information that while those two sleuths of the sporting woods "Smoke" McBride and "Honey" Shelton are not appearing in the limelight to date, still they are wandering far and wide in the moonlight trying to locate material for a team.

Rumor has it that there are three or four lads in the eastern end of the Belt that are faster on the blades than a Heine crossing the Egyptian Desert. Some speed. Also there is some likely looking material around the Southern Metropolis of Smithville, besides some good looking stuff right here at home. Of course it is all Junior C calibre.

Just what will happen in the hockey world is hard to predict. There are a lot of angles to be considered this winter besides material and it is no wonder that Big Rushton is pulling his Clarke Gable permanent wave to shreds. More anon.

SPORTISMS:—Had a letter from down Trenton way last week. Leslie John Farrell, sent me a clipping from a Detroit paper regarding our well paid Shamateur hockeyists. The item did not surprise me. What gave me a great shock was the fact that newspapers had at last penetrated into the district where Les. is hibernated. . . . Here is the item: "Montreal St. Pats, one of Quebec's leading amateur hockey clubs, have withdrawn from competition because of the indictment of their politician-contractors backer. . . . The contractor was doing government work on a cost plus basis which included an \$11,000 salary as vice president to Lionel Conacher, once Canada's greatest athlete, and \$18,000 expenses for the amateur hockey players."

C. H. Rushton, referred to before in this column, has turned Big Game Hunter and unlike his predecessor, Frank Buck, who brought them back alive, he brings his back dead. (And I mean dead. He visited the North country last week, carried a couple of days and came home with a deer. He told the loafers and one cash customer in his mercantile emporium that he got the buck on the fly with the first shot. When Ollie Shaw skinned the animal he found five bullet holes in the hide. How come? That bullet must have split in pieces between the rifle and the deer. . . . The boys who love to throw the balls down the alley and topple over the pins will soon have a high class home of their own to do their trundling in. Georgie Porgie Kanmacher is rapidly whipping his old restaurant into shape and expects to open his new bowling alleys on the first of the month. . . . Leo Reiss, Jr., who played his first hockey with Grimsby junior teams and made a great name for himself with Brantford is now playing with Hamilton seniors. . . . The one and only Thomasine Warner, Corporal Warner, R.C.A.F. Police, to you, was home over Sunday. The Arena isn't going to look the same this winter without the Old Clothes Man. Tom is stationed at Rockcliffe, Ottawa and rumor has it that that station is going to have a whale of a hockey team this winter. Five will get you 20 that Old Tom is tangled up with the team in some capacity.

NORTHERN ONTARIO HAMLEY DOES REMARKABLE WAR JOB

Typical of the manner in which Boy Scouts of rural Canada are doing their share in the war effort is the record of the Scouts of the little Northern Ontario community of Hamley. They have collected nearly 30 tons of scrap metal, 3 tons of rubber and a ton of rags. Every boy is a War Saver and the Troop itself has invested \$20 in War Savings Certificates. It has also raised more than \$20 for the bombed out Boy Scouts of Britain. It has the unique distinction of being one of the very few Boy Scout Troops in Canada sponsored by a Women's Institute.

W. T. Belmont, who has been appointed Travelling Agent, Hamilton, for the Canadian National Railways.

A Veteran at 20!

Back from scores of bombing raids over a dozen countries, this young airman has found adventure in the skies! Just out of his teens, an eager youth in years, he's a veteran in experience. He's a first-line fighting man, trained in the science of war at 5-miles-a-minute!

He and his buddies in R.C.A.F. air crew are team-mates. Gunner, Wireless Operator, Bomber, Pilot, Navigator—all work together as a smooth, swift "attack team" in a giant bomber. Their targets accurately surveyed in advance by daring reconnaissance pilots—their flight protected by the blinding speed of fighter planes—the bombers wing their relentless way to smash Nazi nerve-centres.

The expanded Air Training Plan has room for more men who want to be with these fighting comrades of the skies. Right now applications are being accepted for air crew duty, at R.C.A.F. Recruiting Centres throughout Canada.

If you are physically fit, mentally alert, over 17½ and not yet 33, you are eligible. If you are over 33, but have exceptional qualifications, you may still be considered. Lack of formal education is no longer a bar to enlistment.

Blood Donors Are Badly Needed

Special Grimsby Clinic On Wednesday Next — Must Have 100 Donors to Make Effort Worth While.

Due to men joining the armed forces and others moving from the district the list of Grimsby blood donors has dropped from a total of 25 names to 90 names.

A special clinic is being held for Grimsby men only on Wednesday next, in Hamilton, and the committee in charge are very desirous that they get more volunteers to fill up the depleted ranks. In order to secure this special clinic they had to promise at least 100 donors.

As Wednesday is a half holiday in the stores and as the clinic is from four until seven o'clock there is no reason why any person should lose time from his work.

Transportation will be provided from the Model Dairy continuously from three-thirty until six-thirty.

Persons who would like to donate blood to this worthy cause should contact Wm. Hewson at once as it is necessary for the donor to fill out an application form before going to the clinic.

With the big push now starting to take place overseas blood donations are going to be needed more than ever. All male persons between the ages of 18 and 65 are eligible.

All Set For Scrap Collection Drive

Reeve Charles Durham (North Grimsby) has his organization for scrap collecting in the township about completed.

Four different sets of dates have been allocated for this work according to the set-up which has the township divided into four sections. Householders and farmers are requested to have their scrap all gathered up in one place in readiness for the collectors when they come.

Dates of collection in North Grimsby are as follows: November 16-17, School Section No. 1, from the Clinton line to the town limits of Grimsby, from the mountain to the lake.

November 18-20—From Kerman ave. to the township line between North Grimsby and Saltfleet, from the mountain to the lake.

November 23-25—From the town of Grimsby south to the town line road between North and South Grimsby, west of the Grimsby mountain road.

November 26-28—From the town of Grimsby south to the town line road between North and South Grimsby, east of the Grimsby mountain road.

Heard at a recent mathematical discussion... definition of a limit... when you're working with figures you can go just so far and no farther.

Redford Hails Severely Injured

Struck by Car on No. 8 Highway, East of Beamsville — Was Picking Up Canning Factory Help.

Redford Hails, aged 27 years, of 53 Elizabeth street, Grimsby, was admitted to St. Joseph's Hospital Saturday morning suffering from head injuries and possible internal injuries, as a result of coming in contact with a car on No. 8 highway, about a mile east of Beamsville.

Mr. Hails, who is a trucker, picks up workers for a Grimsby canning plant. Saturday morning shortly after 6 o'clock he stopped to pick up two women, Mrs. Thomas O'Hara and Mrs. U. Barr. He stepped out of his truck to place a ladder at the back of the machine for the use of the two women. He then started to return to the cabin of the truck and was struck by a car. He was found about 20 feet away from his machine lying on the shoulder of the highway.

The car was driven by Peter Braun, 26 Ontario street, Beamsville, who informed Provincial Constable A. E. Reilly that while driving east on the highway he felt a bump but did not see any one. He stopped his car and on walking back found Hails lying on the shoulder of the road.

Lincoln Liberals Want Convention

The conduct of Mitchell F. Hepburn in transferring the premiership of Ontario to Gordon D. Conant, "nominated only by himself," was described as "undemocratic and contrary to the principles of Liberalism and as being calculated to destroy confidence in the institutions of government" in a resolution approved last week by the general committee of the Lincoln Liberal Association in conference at St. Catharines.

The resolution was endorsed by Archie J. Haines, ex-M.L.A., who recalled that he "broke" with the Hepburn administration more than a year ago "over a matter of principle" and he charged "the rights of the people have again been ignored."

Explaining that the first minister of the government should have the confidence of the elected supporters of the government and furthermore that the "leader of the Liberal party should be elected at a properly constituted convention of the party," the resolution asserted that Mr. Hepburn had delivered the premiership to a successor "without reference to the wishes of the Liberal members of the Legislative Assembly."

CITIZENS OF LINCOLN COUNTY!

YOUR GOVERNMENT NEEDS YOUR SCRAP IRON AND STEEL NOW

More scrap steel and iron is urgently needed if we are to produce the ships, tanks, planes, guns and munitions necessary to win this war. You are asked to do your part by turning in every available ounce of scrap metal you can find in your home or on your farm.

This campaign is from November 1st to December 15th, 1942.

In order to facilitate the systematic collection of scrap iron and steel in your County, Wartime Salvage Limited, a Government Company, and the Steel Controller, have completed arrangements with your County Warden and Township Reeve to supervise the collection and sale of the scrap iron and steel you deliver.

HERE IS WHAT YOU DO

Dig out every ounce of scrap iron and steel you can put your hands on.

Township Groups have been formed. Find out from your Township Reeve how and where he wishes you to take your scrap.

The price to be paid by Wartime Salvage Limited, a Government Company, has been fixed by the Department of Munitions and Supply as follows:

1. Price at Collection point will be \$7.00 per net ton on ground.
2. For scrap loaded on cars containing less than 25 tons, price will be \$8.50 per net ton.
3. For scrap loaded on cars containing 25 tons or more price will be \$10.00 per net ton F.O.B. cars.

The above prices will be paid for all forms of scrap iron and steel excluding (a) Sheet Tin of any kind, (b) Automobile Bodies and Fenders, (c) Stovepipes, and (d) Wooden Attachments.

HOW TO DISPOSE OF YOUR SCRAP WHEN COLLECTED!

When you have delivered your scrap to the place designated for your Group in accordance with the instructions of your Township Reeve, you can then—

- ★ 1. Sell your scrap metal to the Government Agency and divide the proceeds of such sale among the various members of your Group to which you will be appointed by your Township Reeve, or—
- ★ 2. You may donate your scrap metal to the Voluntary Salvage Corps or Committees functioning in your Community, or—
- ★ 3. You may sell your scrap metal to the Government Agency and then turn over part or all of the proceeds of this sale to the Local Salvage Corps or Local War Charities.

Your contribution to the war effort is simplified by this arrangement. Don't wait until you are urged by your Township officials to do this all-important work. Get busy right away. Canada needs, and must have, tons of scrap iron and steel now if we are to keep our fighting forces armed and ready to win through to victory.
